Current Living Conditions

CRITICAL

The **Rodriguez Family's** current house is slowly falling apart. The wood is rotting and does not provide good shelter. When it rains the house floods and no longer suitable to stay in. So when it rains Yoli and her children find refuge in her sister's home. Yoli is a hard working, single mother, who very much loves her family—and this is very evident. The family is patiently waiting for their new home and to be able to get to know you!
